#### Risk Disclosure and Important Notes:

- Please note that Unit Trusts, Bonds, Bond Linked and Equity Linked Products are trading products and certain investment products are structured products involving derivatives. The investment decision is yours but you should not invest in any of such product(s) unless the intermediary who sells it to you has explained to you that the product is suitable for you having regard to your financial situation, investment experience and investment objectives.
- As bonds may not have a liquid or active secondary market and their prices may have large bid or offer spread, it may be difficult to sell them and get money back before they are mature. Price of bond will change in opposite direction from a change in interest rates. The longer the tenor of the bond, the more price sensitive it will realize to the rates move. All bonds are subject to issuer default risk. In case of credit event, customers may get nothing back and the potential maximum loss could be the total investment amount and no interest received. Credit ratings assigned by credit rating agencies do not guarantee the creditworthiness of the issuer.
- Investment involves risks, including the substantial loss of the principal amount invested. The prices of investment products may move up or down, sometimes dramatically, and may even become valueless. Past performance is not indicative to future performance.
- Transactions denominated in foreign currencies involve exchange rate risks. If you need to convert the unit currency of the transaction into another currency, you may have to bear a serious loss in principal due to exchange rate fluctuations.
- If the investment involves Renminbi (RMB), you should be aware that the value of Renminbi against other currencies fluctuates and is subject to, among other things, the control of the Chinese government. You should also note that RMB is currently not freely convertible and the offshore RMB exchange rate may deviate significantly from the onshore RMB exchange rate.
- Customers should not make any investment decision solely based on the information provided in this promotional material. Before making any investment decision, customers should read attentively and carefully consider all the relevant investment products offering documents and information (including but not limited to the risk factors set out therein) to understand the products features and associated risks. Investment decision is made by customers; customers should also seriously consider if the relevant investment product is suitable for them by reference to their own financial position, investment objectives, investment experience and other relevant circumstances. If necessary, customers should obtain independent professional advice before making any investment decision.
- Nothing in this promotional material constitutes an investment advice or an offer or an inducement to any person to acquire, purchase or subscribe for any investments, products or services referred to herein.
